DLHM from LEGO Bricks

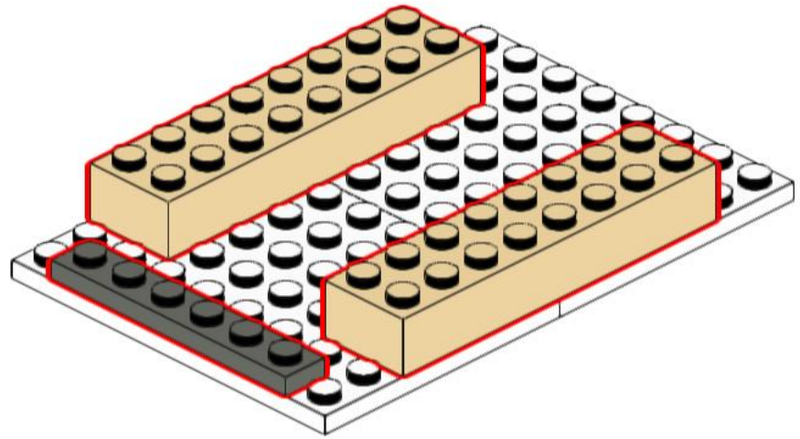

1

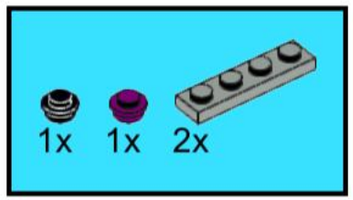

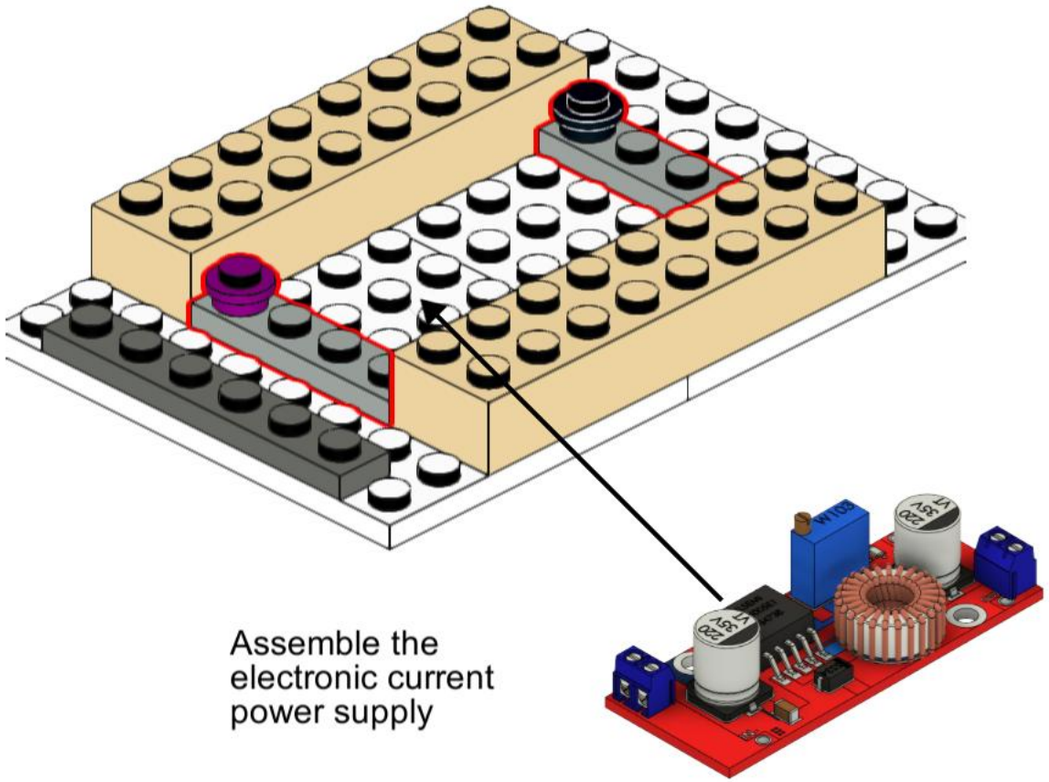

2

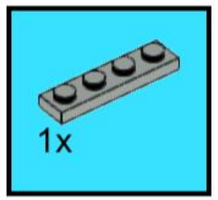

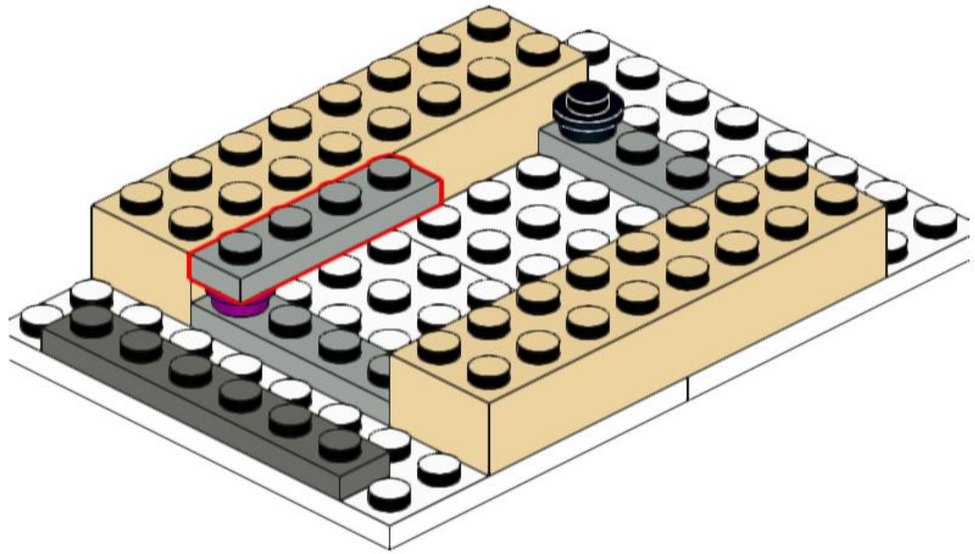

3

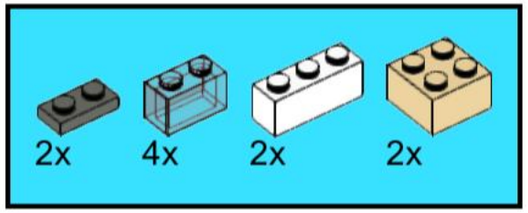

Assemble the electronic current power supply

4

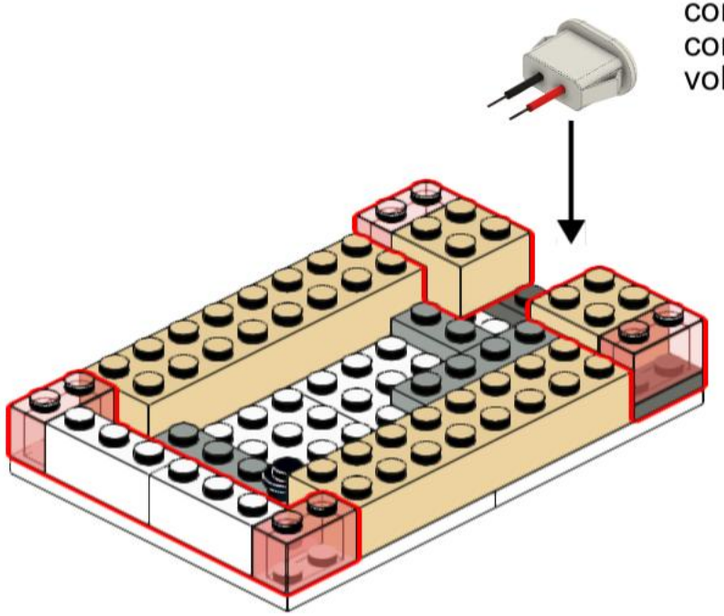

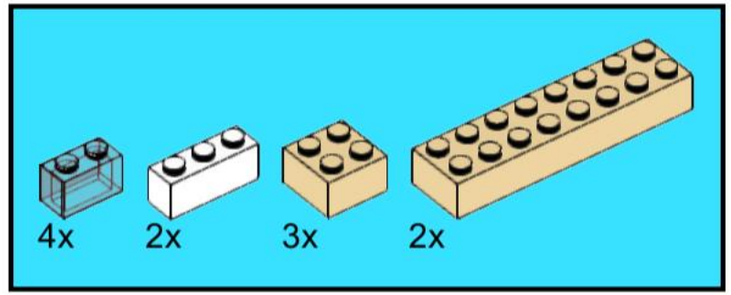

5

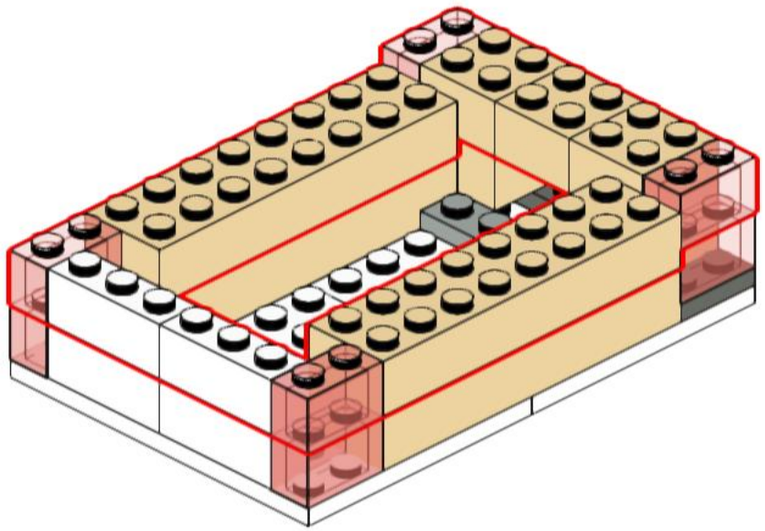

Assemble the USB connector and connect it to the voltage regulator.

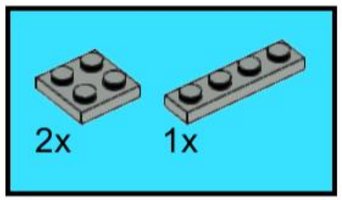

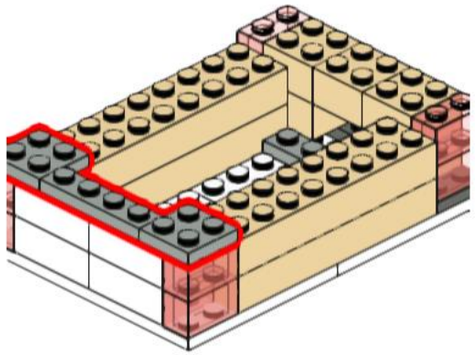

6

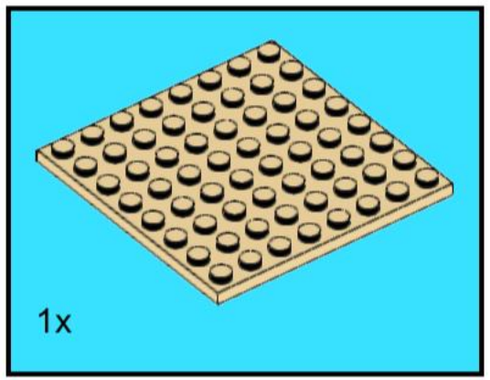

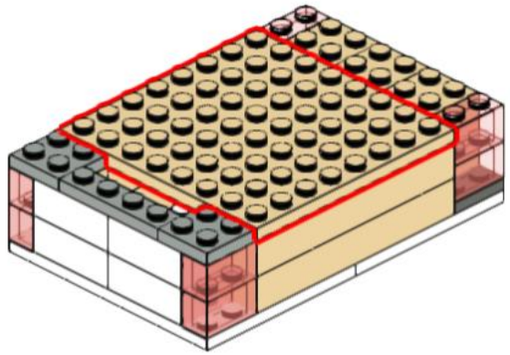

7

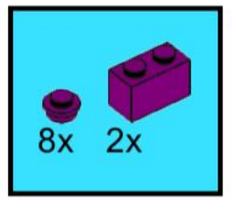

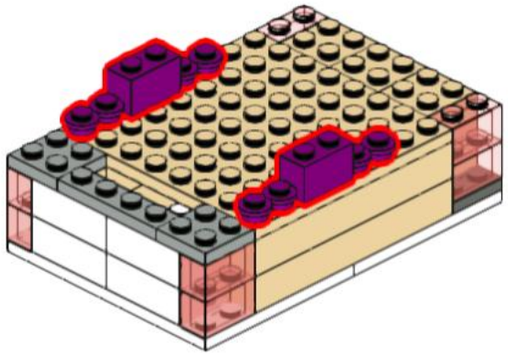

8

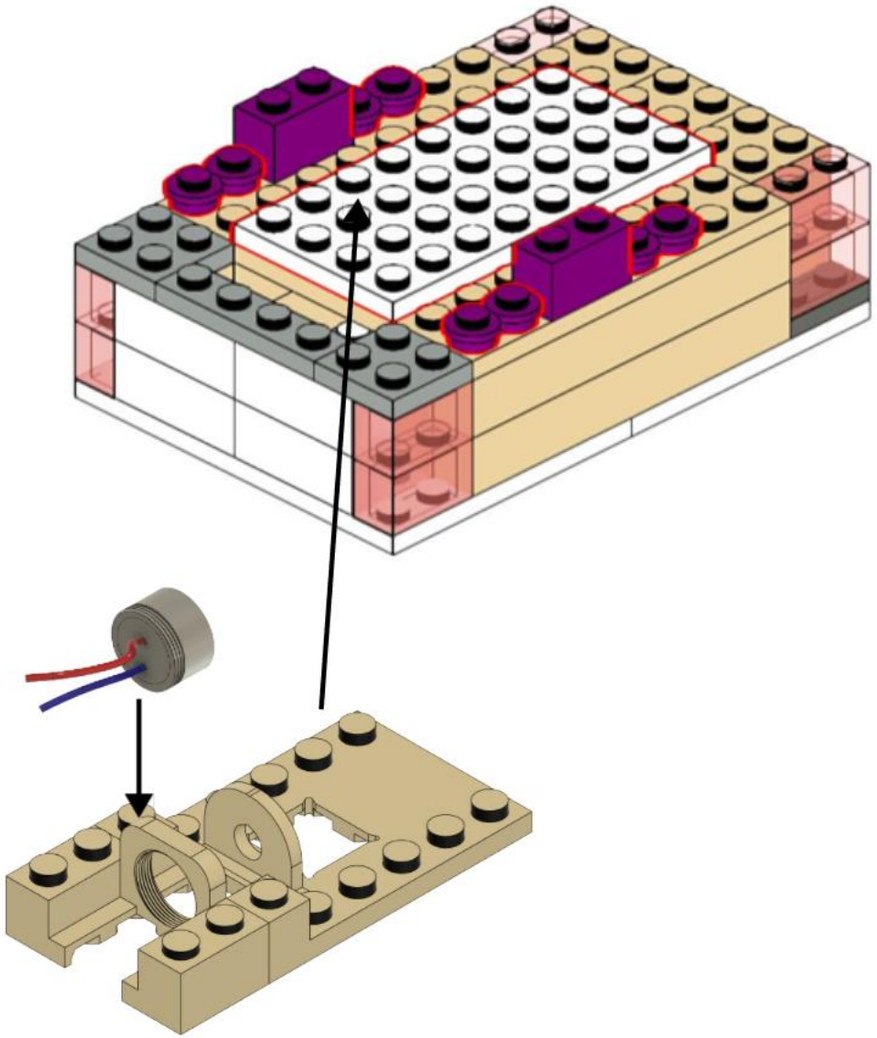

9

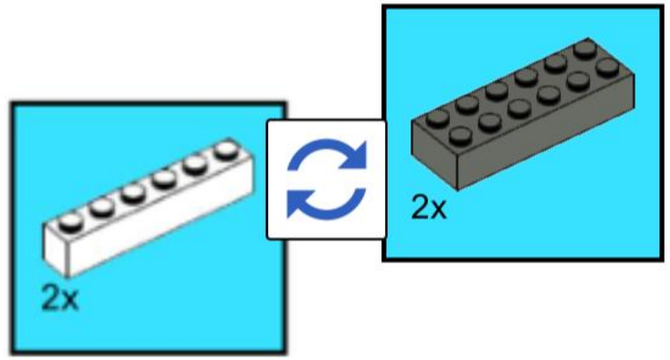

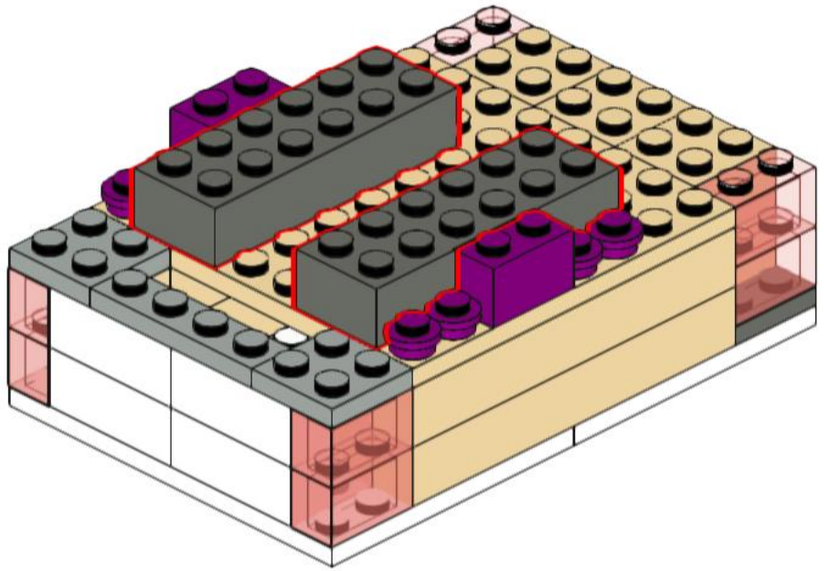

10

Replace the 4 × 8 piece with the specified 3D-printed parts. Before proceeding, make sure to screw the power supply into the 3D-printed part and connect it to the voltage regulator.

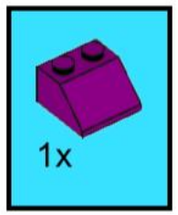

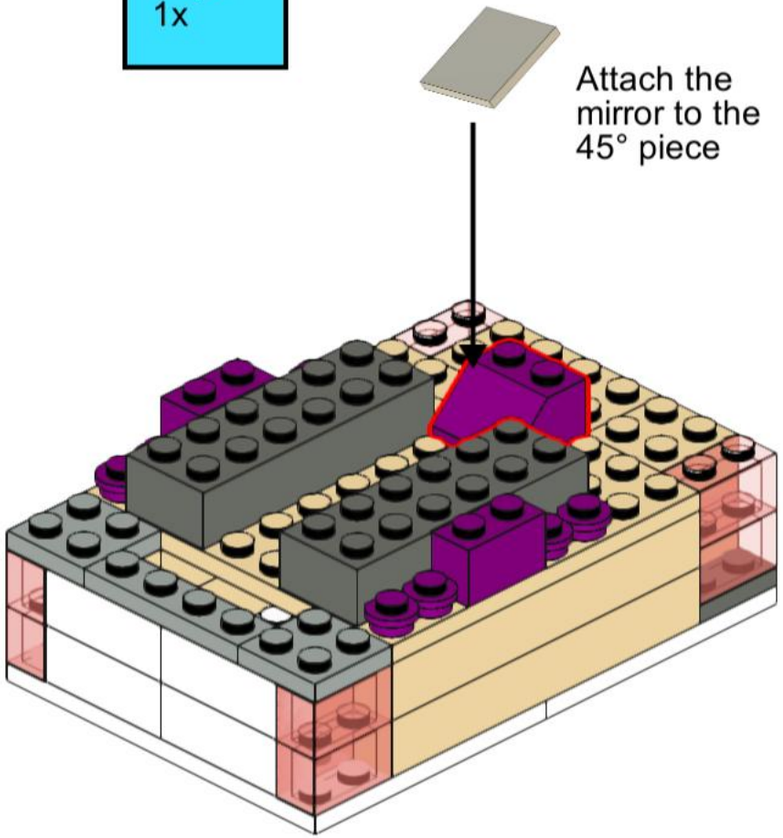

If you are assembling the structure using LEGO pieces only, do not replace the 2 × 6 piece and proceed to the next step.

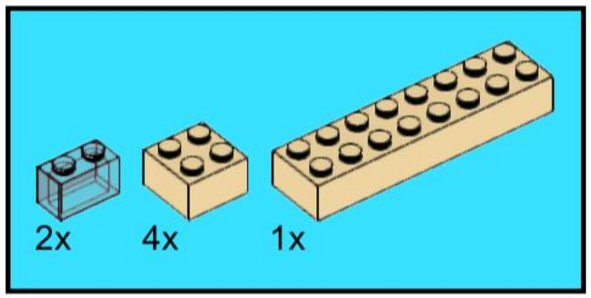

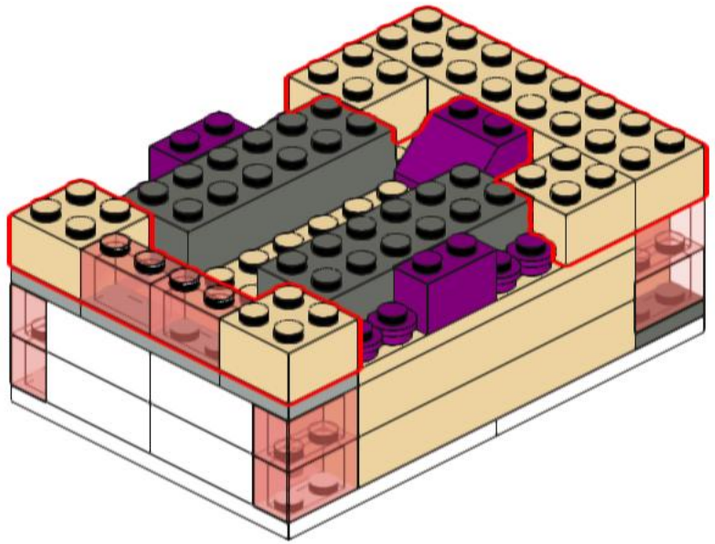

11

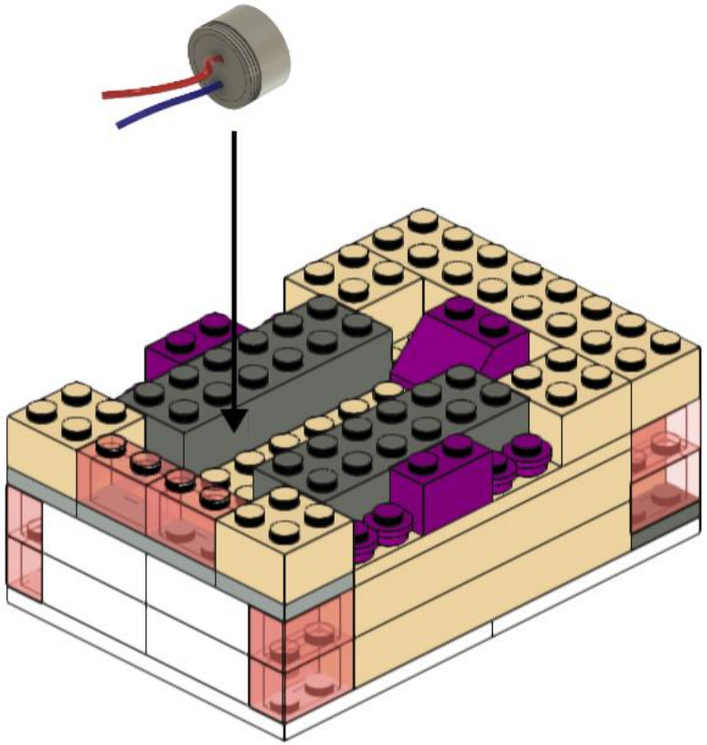

12

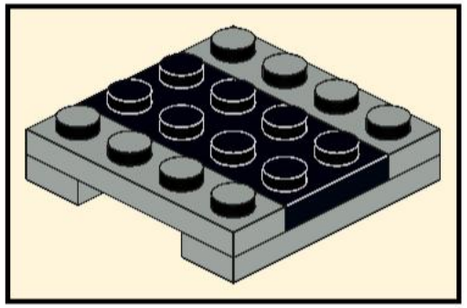

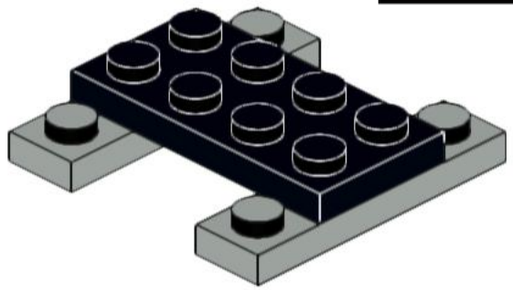

13

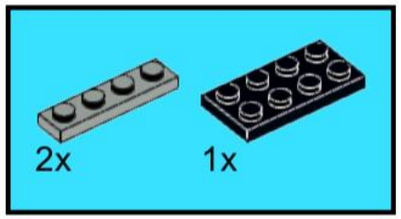

14

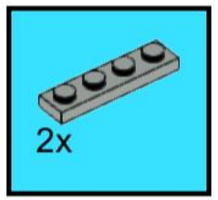

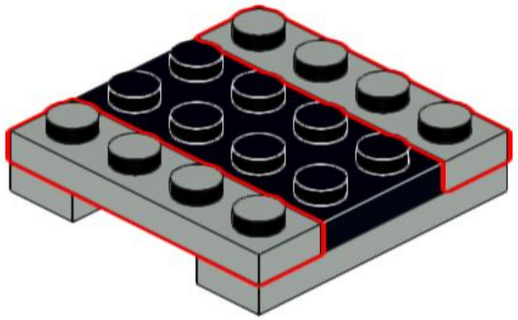

The next two steps apply if you are using a LEGO-only structure and plan to sandwich the light source between the LEGO pieces. If you used the part described in Step 10, skip these steps.

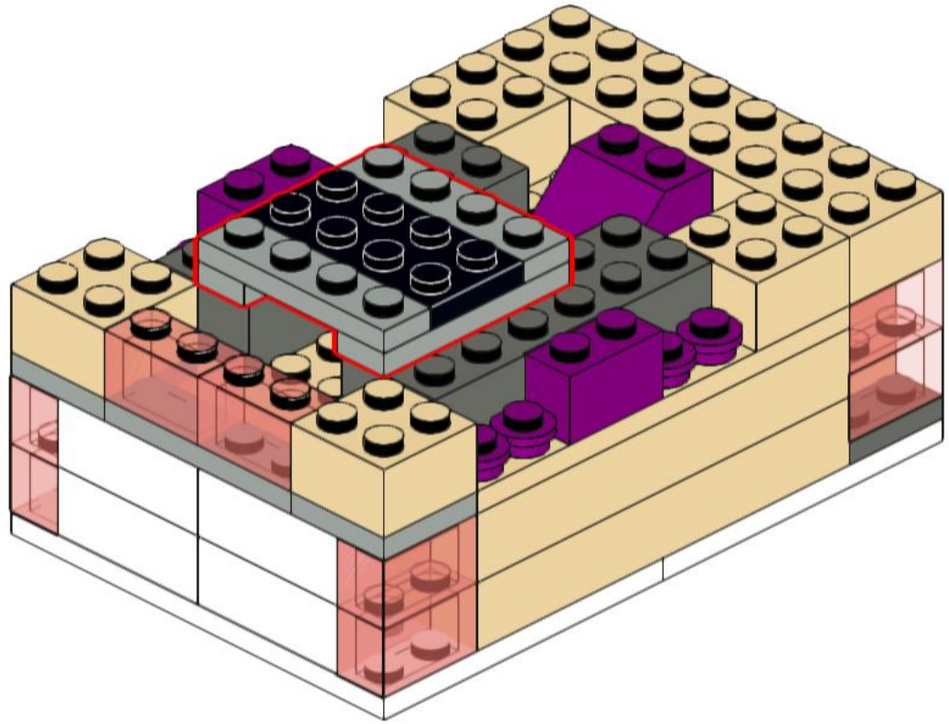

15

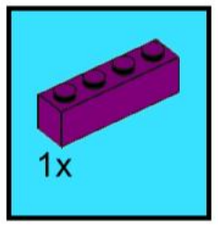

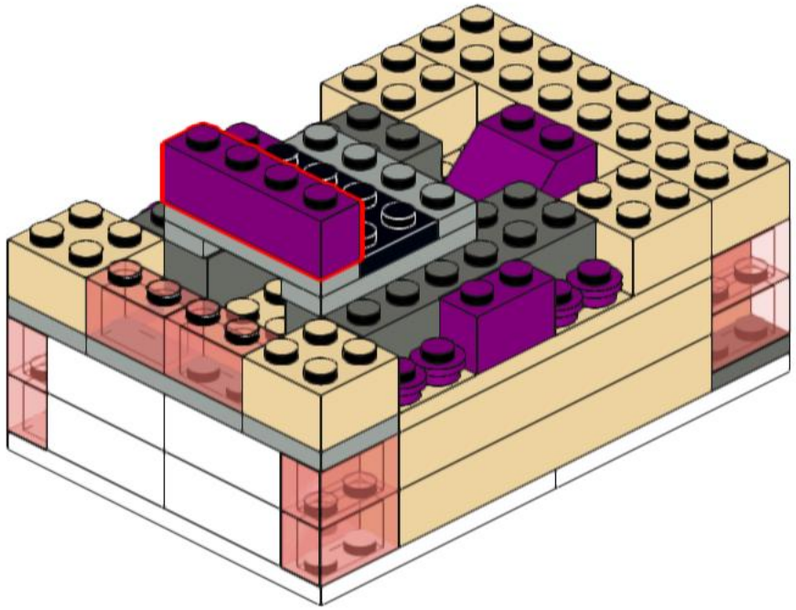

16

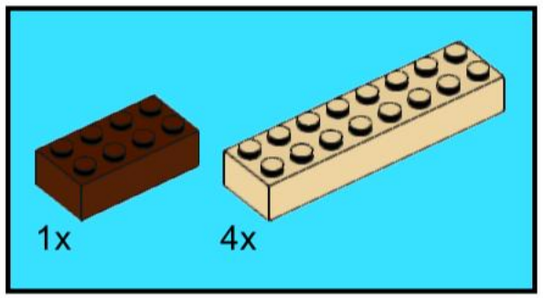

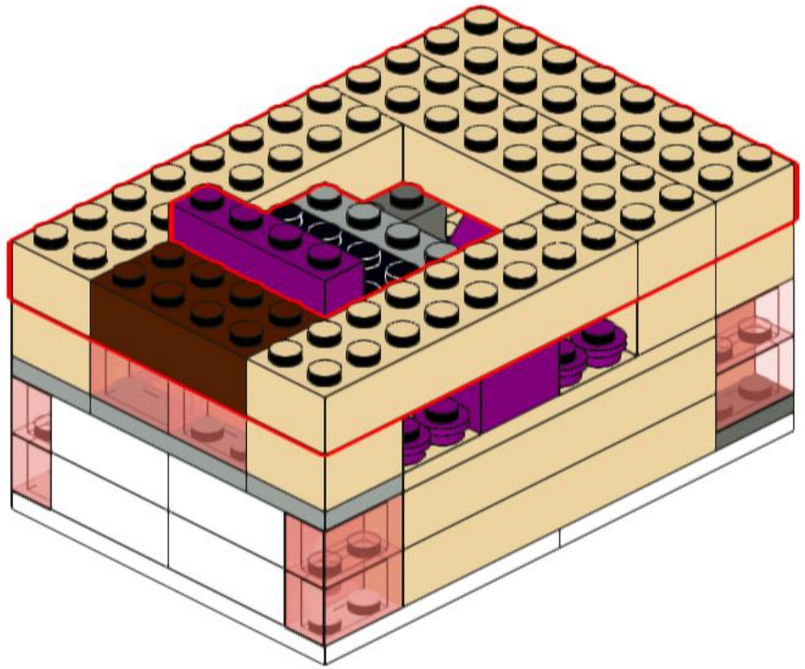

17

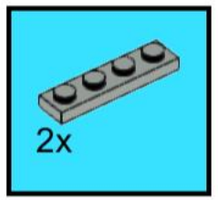

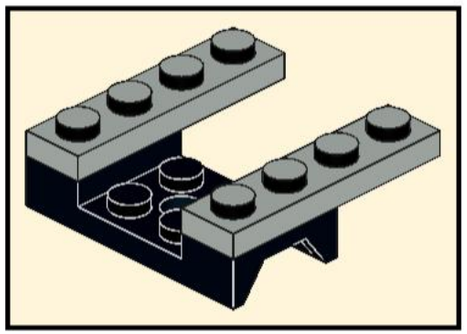

18

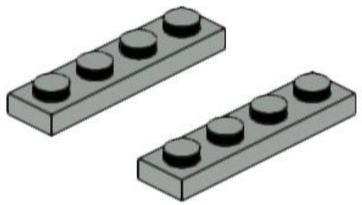

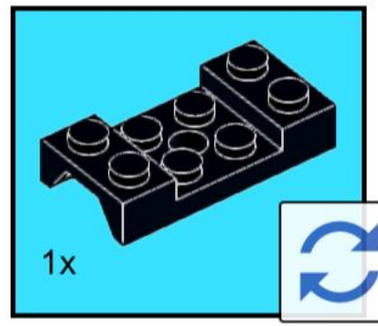

19

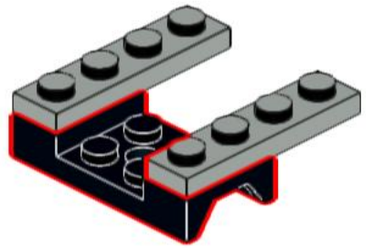

20

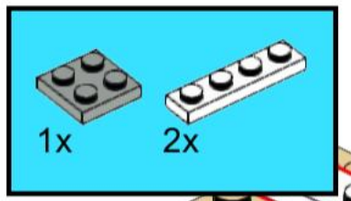

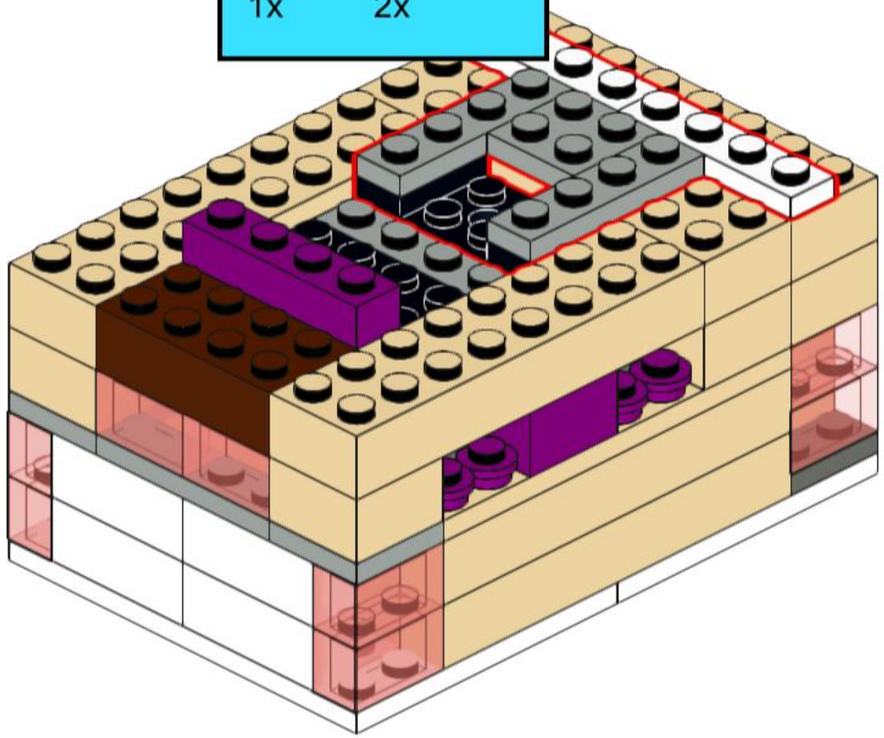

Replace the indicated piece with the 3D-printed part. Assemble the aspheric lens beforehead

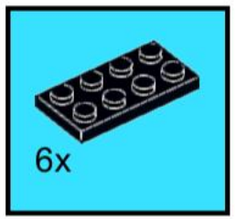

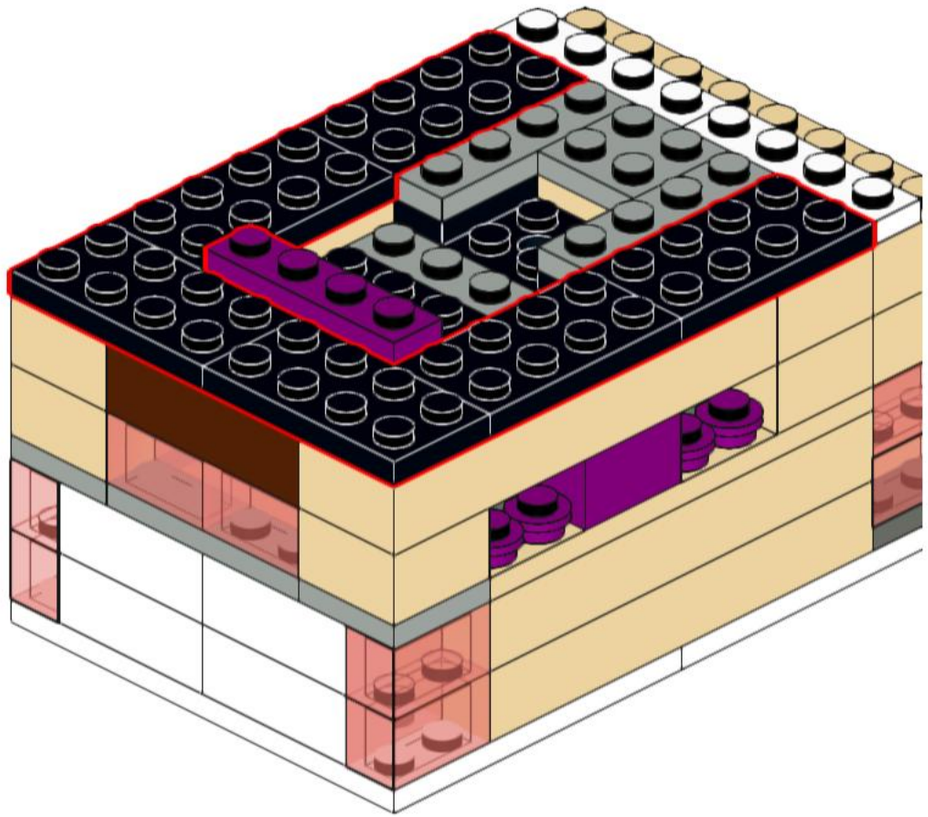

21

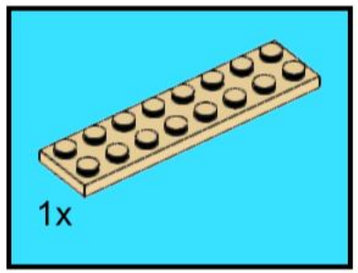

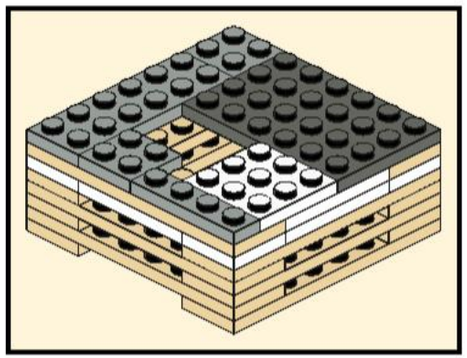

22

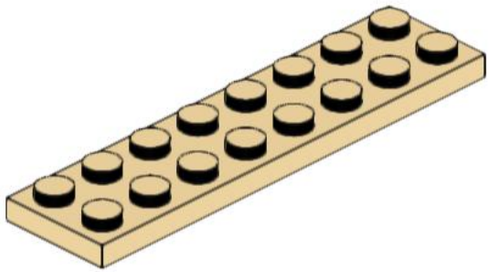

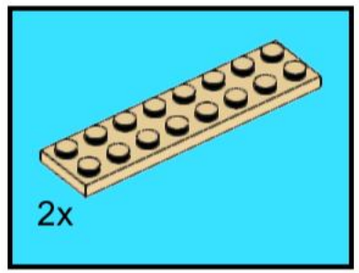

23

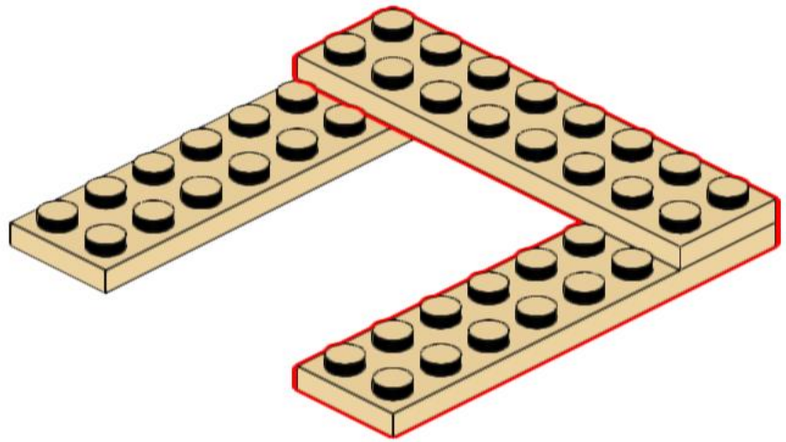

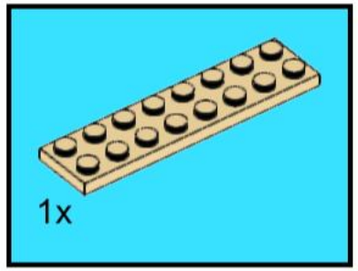

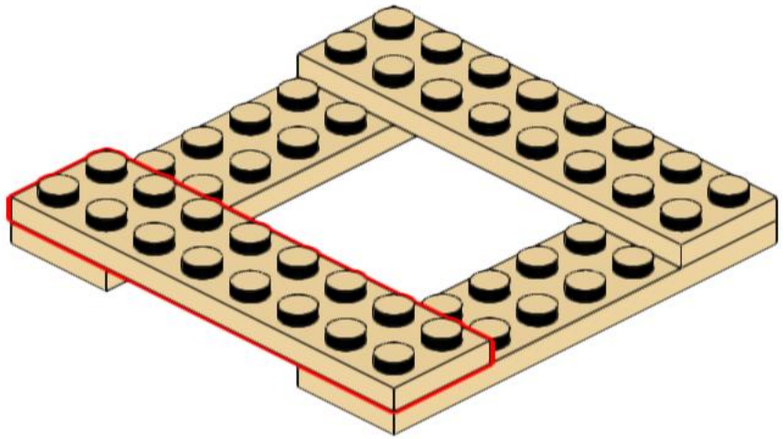

24

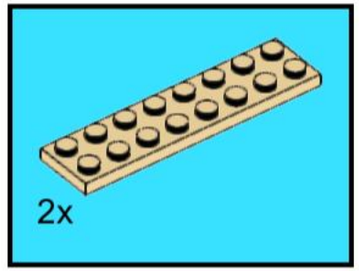

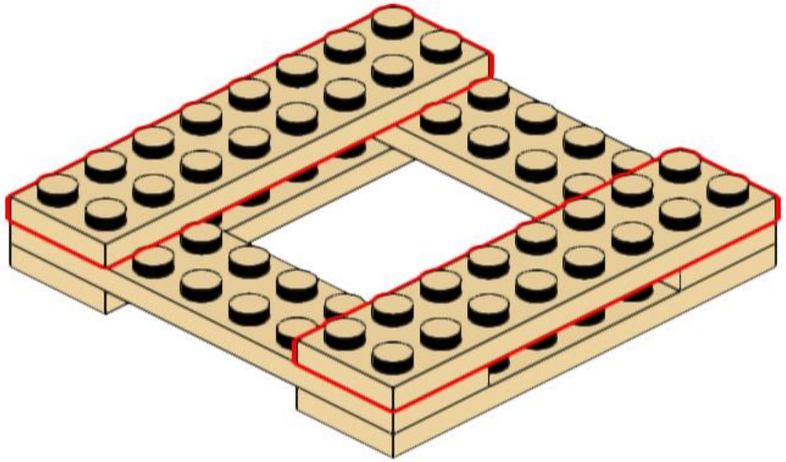

25

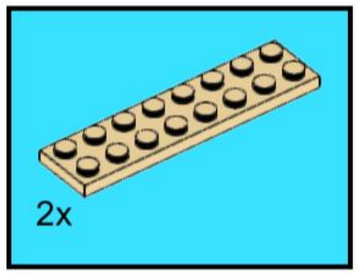

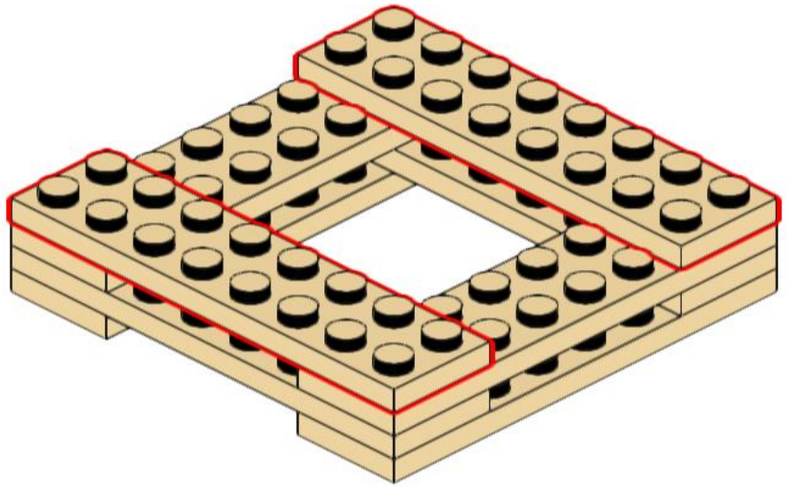

26

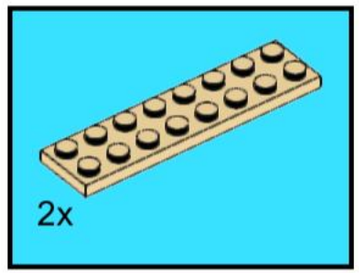

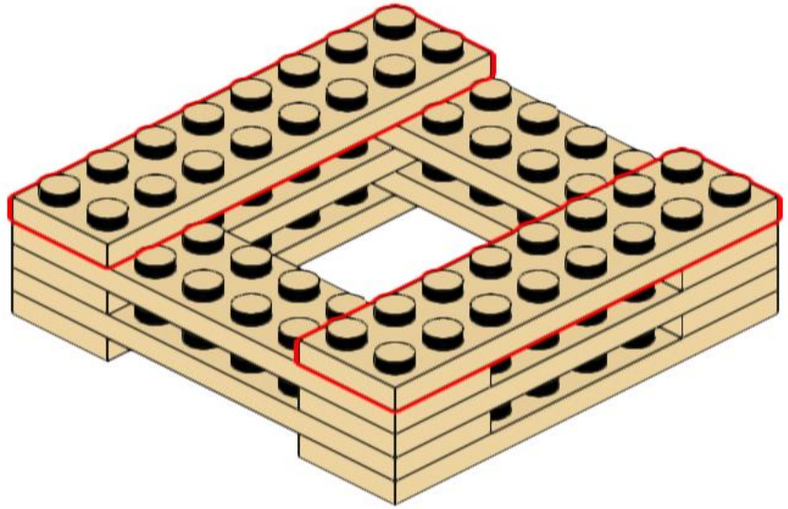

27

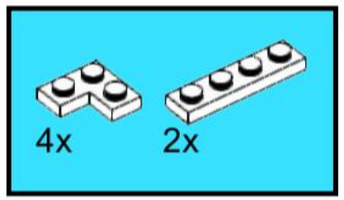

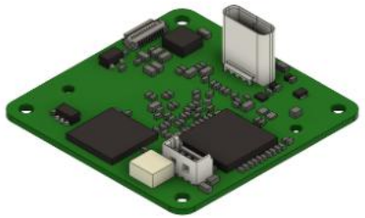

28

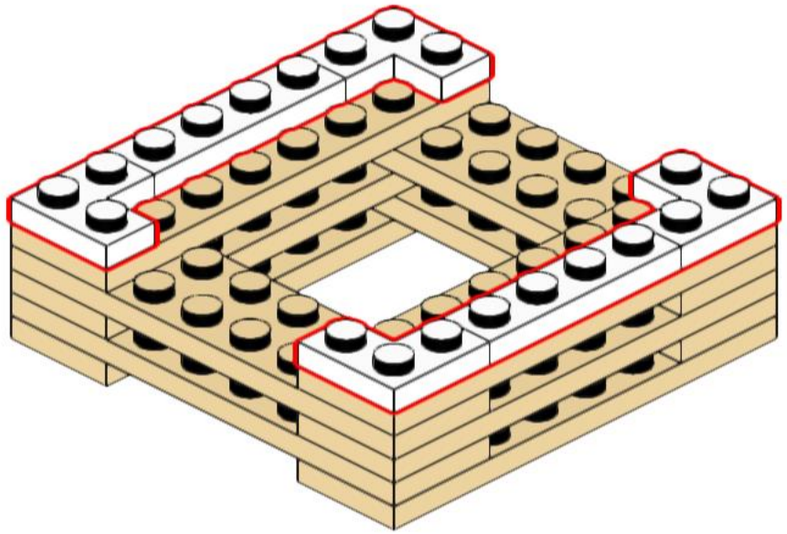

29

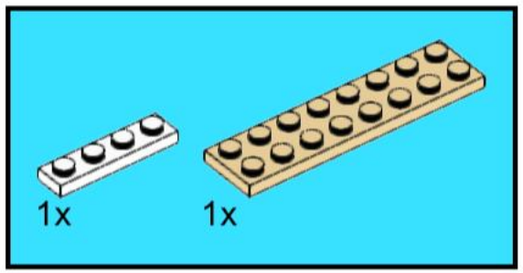

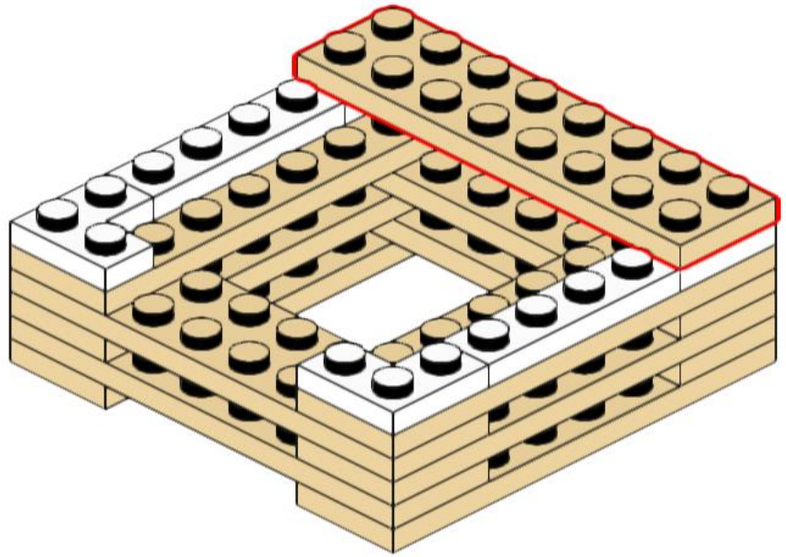

Assemble the camera before covering it with the upper pieces
